2025 IEEE 8th International Conference on
Pattern Recognition and Artificial Intelligence

Special Session 03
Intelligent Data Analysis and Cyber Security

The increasing severity of cyber attacks has made cyberspace security an important research area, and mining critical information from various types of cybersecurity data has attracted increasing attention. Effective analysis of security data using advanced artificial intelligence and big data analysis techniques can provide a more powerful and intelligent way to defend against cybersecurity risks..

Track Chair
Binhui Tang

Chengdu Jincheng College, China
Email Address: 565081821@qq.com

▶ Important Dates

Submission Deadline (Regular)
📅 May 5, 2025
Notification Date (Regular)
📅 May 30, 2025
Registration Deadline
📅 June 15, 2025

TOPIC OF INTEREST

Topics of interest include, but are not limited to:

- Cybersecurity Data Analysis and Mining
- Security and privacy of big data
- Information extraction and text mining for threat intelligence
- Natural Language Processing
- Mobile Big Data Computing for Cybersecurity
......

▶ Publication

◆ IEEE Accepted papers will be published in PRAI 2025 Conference Proceedings, and submitted for inclusion into IEEE Xplore and indexed by EI Compendex & Scopus.

▶ Submission Information

Submit Online:
